Objective

I am looking for work experience over the summer so that I can become a qualified computer engineer. I hope to work with and learn about all kinds of software and hardware so that I can have growing list of technical skills throughout my career.

Qualifications

Canterbury University

Christchurch, New Zealand

2024 - Present

Computer Engineering | Communications Minor

Current GPA Total of 7.19 / 9.0

Dunstan High School

Alexandra, New Zealand

2022

NCEA Level 3

Technical skills / competencies

- Restricted Car License with R endorsement
- Capable of 3D modeling, designing and evaluating circuitry
- Experienced in operating power tools found in workshops and construction sites
- Educated on operating Python3, C/C++, Java and VHDL
- Capable of operating Git to work in tandem with multiple programmers
- Quick at adapting to unfamiliar tools and IDEs for the given situation

Teamwork skills

- Working with construction under a foreman and more experienced peers developed the skills to follow instructions and provide constant assistance when needed.
- Used to long work hours with consistent effort applied due to time in construction and volunteering in rural environments.
- Contributed to numerous group projects which improved my ability at time management and scheduling.
- Producing work in GIT repositories has given me an understanding of working around peers in a way that is both unintrusive and supporting.

Work history

Spence Plastering

Alexandra, New Zealand
Jan 2023 - Nov 2023

Laborer

Worked from roughly 8-5 moving materials, doing set-up, clean up, painting and other odd jobs for the team.

Community & volunteer experience

Pet shop

Alexandra, New Zealand
Feb 2022 - Nov 2022

Volunteer

This was a volunteer position I worked for after school twice a week.

Salvation Army

Alexandra, New Zealand
Jan 2020 - Oct 2021

Volunteer

During gaps in my school terms, I assisted in manual labor for the town's community garden and transporting wood throughout the town.

Interests

- Weight training 4 times a week to stay physically healthy and active.
- Model Assembly as I enjoy physically creating and putting together larger assemblies.
